Dear Mr. McLaren:

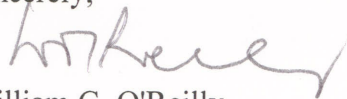

Our sincere thanks to you and your crew of divers for helping us prepare for the 10th Annual Swim Across the Hudson™ for MS that was held on Saturday, September 9, 2006 from Emeline Park in Haverstraw to Croton Point Park, Croton on Hudson.

It was great to have your crew do an inspection of the water and river bed off Emeline Park and to know that there were no major obstructions in the water. I know from speaking with the Mayor of Haverstraw, Francis Wassmer, that you did this work at no charge. He was delighted to let me know this and we were also most grateful.

Please extend my thanks to your colleague, Rick Gilbert, who was in charge of the crew that did the work. He was extremely helpful when I spoke with him after their inspection. He and his crew had cleared any debris off the beach that they considered a potential danger. It was great to have that reassurance.

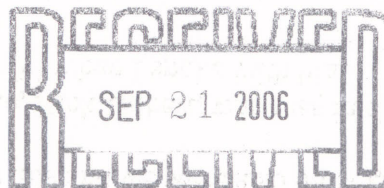

The swim was a great event for us with over 150 swimmers completing a one mile, two mile or three mile swim; 71 swimmers completed the full crossing from Haverstraw to Croton Point Park. We certainly look forward to next year.

Sincerely,

William G. O'Reilly
Chapter President

Cc: Francis Wassmer
